Wormwood				
FLOWERING VINES				
American wisteria				
Cardinal climber				
Clematis				
Honeysuckle vine				
Pothos				
Purple bell vine				
Sweet potato vine				
Wild potato vine				
Yellow butterfly vine				

Notes:

- Most "sun" plants could grow in extreme all-day sun if well watered and sheltered from extreme winds.
- Indoor tropical plants can be brought out but most should be considered as sun-shade plants, until acclimated.
