PLANT GUIDE

FOR CLAY SOIL GARDEN

Clay soil can be difficult to work at certain times of the season. Poorly drained, compact and heavy, you might think this type of soil has only drawbacks. However, it is rich in nutrients and suitable for many plants.

You can, of course, try to modify its composition over time. Find out how in our article on [planting in clay soil](#). However, if you've chosen to avoid this trouble, here's a list of plants that particularly enjoy clay soil.

TIP

Want to grow plants that prefer loose soil or your favourite vegetables in the garden? Try raised beds and container gardens!

FLOWERS

Common yarrow
Achillea millefolium

Monkshood
Aconitum spp.

Bugleweed
Ajuga reptans

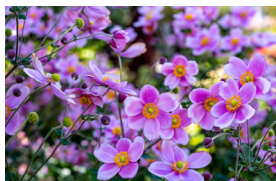

Hollyhock
Alcea rosea

Alchemilla
Alchemilla mollis

Amaranth
Amaranthus spp.

Japanese anemone
Anemone hupehensis

Snapdragon
Antirrhinum majus

Columbine
Aquilegia spp.

Aster
Aster spp.

Masterwort
Astrantia major

False indigo
Baptisia australis

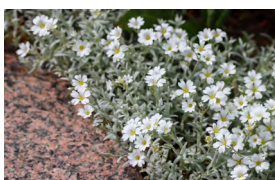

Elephant's ears
Bergenia spp.

Siberian bugloss
Brunnera macrophylla

China aster
Callistephus chinensis

Snow-in-summer
Cerastium tomentosum

Coreopsis
Coreopsis spp.

Deutzia
Deutzia spp.

Delphinium
Delphinium spp.

Carnation
Dianthus spp.

FLOWERS

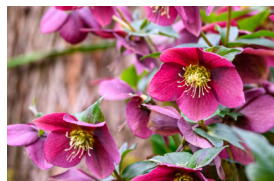

Foxglove
Digitalis purpurea

Fuchsia
Fuchsia spp.

Perennial geranium
Geranium spp.

Hellebore
Helleborus spp.

Daylily
Hemerocallis spp.

Swamp rose-mallow
Hibiscus moscheutos

Hosta
Hosta spp.

Iris
Iris spp.

Bleeding heart
Lamprocapnos spectabilis

Shasta daisy
Leucanthemum x superbum

Lupine
Lupinus spp.

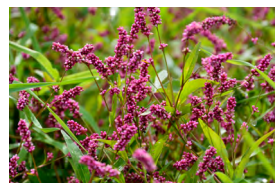

Fern
Matteuccia struthiopteris

Banana tree
Musa spp.

Peony
Paeonia spp.

Smartweed
Persicaria spp.

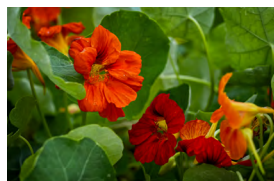

Primrose
Primula spp.

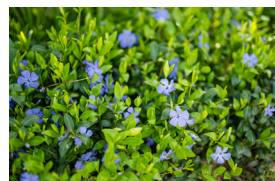

Coneflower
Rudbeckia spp.

French marigold
Tagetes patula

Nasturtium
Tropaeolum majus

Periwinkle
Vinca minor

Yucca
Yucca filamentosa

GRASSES

Reedgrass
Calamagrostis
acutiflora 'Karl Foerster'

Maiden grass
Miscanthus

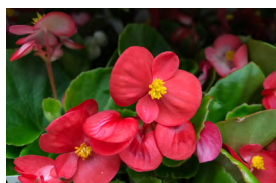

Switchgrass
Panicum virgatum

BULBS

Arum
Arum spp.

Begonia
Begonia spp.

Canna
Canna indica

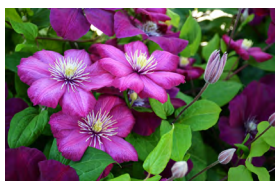

Dahlia
Dahlia spp.

Narcissus
Narcissus spp.

CLIMBING PLANTS

Clematis
Clematis spp.

Climbing rose
Rosa spp.

TREES AND SHRUBS

Downy serviceberry
Amelanchier arborea

Berberis
Berberis spp.

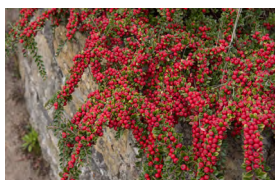

American beautyberry
Callicarpa americana

Quince tree
Chaenomeles spp.

Dogwood
Cornus spp.

Cotoneaster
Cotoneaster spp.

Hawthorn
Crataegus spp.

Burning bush
Euonymus spp.

Forsythia
Forsythia spp.

Incrediball® hydrangea
Hydrangea arborescens
'Incrediball'

TREES AND SHRUBS

Kalm's St. John's wort
Hypericum kalmianum

Holly
Ilex spp.

Privet
Ligustrum spp.

Honeysuckle
Lonicera spp.

Mahonia
Mahonia spp.

Apple tree
Malus spp.

Mock orange
Philadelphus spp.

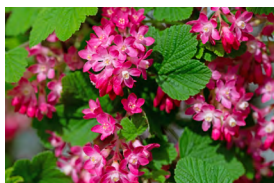

Ninebark
Physocarpus opulifolius

Cinquefoil
Potentilla fruticosa

Sweet cherry
Prunus avium

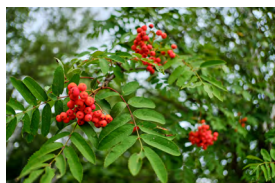

Currant bush
Ribes sanguineum

Rose, some varieties
Rosa spp.

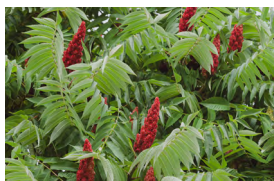

Elderberry
Sambucus spp.

Mountain ash
Sorbus spp.

Spirea
Spiraea spp.

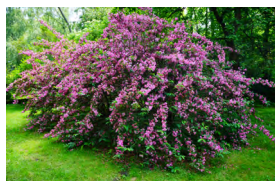

Sumac
Sumac spp.

Japanese cedar
Cryptomeria japonica

Arrowwood
Viburnum spp.

Weigela
Weigela spp.

EDIBLE PLANTS

Lettuce

Spinach

Leek

Bean

Pea

EDIBLE PLANTS

Eggplant

Chicory

Broccoli

Rhubarb

Pepper

Brussels sprout

Cauliflower

Artichoke

Tomato

Short or round carrot

Mint
